

Neurologist for Bush Veterinary Neurology Service – Rockville, Maryland

Bush Veterinary Neurology Service is seeking a Board-Certified or Residency trained Neurologist/Neurosurgeon to join our tight-knit and well-established team in Rockville, Maryland. The successful candidate is team oriented and has excellent communication skills with fellow colleagues, clients, and the referral community.

Our Hospital: Opened in 2014, our Rockville facility is over 32,000 square feet and home to a 24-hour emergency service supported by board certified specialists in Internal Medicine, Cardiology, Neurology, Oncology, Critical Care, and General Surgery. Our site offers a 1.5 T GE MRI, 64 Slice Helical GE CT Scanner, Cadwell EEG, Viking BAER/EMG/NCV Machine, and in-house IDEXX laboratory.

Our Team: BVNS Rockville is a talented, experienced, and hard-working team. We focus on delivering exceptional patient care and client service while maintaining a culture of teamwork and camaraderie. BVNS understands that a truly productive team must have a work-life balance making this a unique opportunity to thrive both personally and professionally. A large preexisting neurosurgical caseload will allow this doctor to “hit the ground running”!

The Rockville Area: Rockville is regarded as one of America’s leading small cities for work, for play, and for life. It is the vibrant, highly educated, business-friendly home to some of the nation’s and the world’s most prominent biomed and technology companies and is adjacent to the world’s most powerful city, Washington, D.C. The area abounds with world famous recreational and cultural activities such as equestrian training, kayaking, hiking, skiing, beaches, the White House, Smithsonian Museums, Kennedy Center, Baltimore Aquarium, Gettysburg battlefield, unrivaled restaurants, and major sports teams in both Baltimore and D.C.

Bush Veterinary Neurology Service

BVNS strives to advance veterinary medicine and provide high quality, compassionate care that improves the lives of patients and their human companions. Our goal is to not only be a **leader** and **innovator** in neurology and neurosurgery, but also to offer the members of our company opportunities to grow and learn every day. We provide our Staff Neurologists the chance to assist in our intern and residency programs, weekly journal clubs and yearly surgery labs, as well as support them in a wide range of their special interests and research projects. We believe that through collaborative problem solving, teaching and clinical research, we can learn and continue to provide exceptional care for our patients.

We offer an outstanding compensation package including competitive salary, health, dental, disability, life insurance, and a 401(k) with company match, as well as a generous signing bonus. Please contact Jessica May, PHR (jessica.may@bvns.net) to learn more about this great opportunity.
